Light Up Bristol BLUE

(BRISTOL, CT: October 16, 2022) – In an effort to show solidarity, Bristol residents are being asked to light up the City BLUE in honor of and to support the Bristol Police Department. Bristol residents are being asked to turn on their blue lights, light a candle, fly their flags tonight to support the Bristol Police Officers who will be returning to Bristol patrol duty for the first time since Wednesday.

Bristol is ever grateful for the mutual aid from the state police and every community these past days. Our officers are being supported today by East Hartford today in tandem patrols.

We as citizens can do our part as well by driving very cautiously, acknowledging our officers by putting our arms around them today and most importantly putting our arms around our family members to make sure they are good today.

As they drive around today and tonight, let's show them that Bristol is All Heart.

(The Home Depot has graciously donated over 300 blue light bulbs to the Bristol Fire Department. Bristol residents can pick up one light bulb per house starting at 12 noon today Sunday, October 16th at Fire House #4 located at 17 Vincent P Kelly Road. There is a limited supply and proof of residence is required.)
