Bristol Public Works Department to Present Recycling 101 Workshop in February

(BRISTOL, CT: January 5, 2023) –The Bristol Public Works Department will be hosting a “Recycling 101 Workshop” for the community on Wednesday, February 1, 2023 from 6 to 7 pm at the Bristol Public Library on High Street.

Based on the increasing costs and significant global changes affecting recycling, the City of Bristol’s Public Works Department is hosting this workshop to give Bristol residents an opportunity to learn about recycling and what’s in and out of your blue recycle bin.

Sherill Baldwin from CT DEEP will be presenting attendees with an update on what does and doesn’t go into the blue recycle bins

“It’s important for the community to understand the importance of recycling properly and I encourage Bristol residents to attend this workshop to learn different ways they can reduce their carbon footprint,” stated Mayor Jeffrey Caggiano.

All are welcome to attend, no registration is required.

The mission of the Bristol Public Works Department is to preserve and enhance the social and environmental quality of life in the City of Bristol. This is accomplished through the delivery of services designed to safeguard the health, safety, and welfare of its citizens and to maintain and improve the city’s infrastructure in an effective, efficient, and professional manner. For more information about all the services and additional environmental workshops offered to Bristol residents, visit the Public Works Department page on the City of Bristol’s website at: <http://ct-bristol2.civicplus.com/220/Public-Works/>
